## **Course Description**

---

Course no	Course name	Prerequisite
1505391	Internship in Artificial Intelligence	Department Permission

Students are required to train for 8 weeks in any company, governmental or private entity based on what he/she learned in the department after successfully passing 90 credit hours. Each student is required to handle a report at the end of training period showing the stages of training, the benefits it obtained, and the difficulties it encountered. The report will be discussed with student's supervisor.
