Education Style	*Face-to-face education (complete face-to-face)* ☐ *Blended learning (2 face + 1 asynchronous)* ◼ *Complete e-learning (2 synchronous + 1 asynchronous)* ☐	

<mark>Short Description of the Course</mark>

The student spends as a trainee in a company or government agencies for the purpose of introducing the student to the real world of work and enabling him to apply and link his academic knowledge with a real work environment. The student is required to participate in computer science-related activities and to use his or her time to learn about computer science-related jobs and resources used by the organization in which he or she works. Along with progress reports, the student is required to submit a final report and make a presentation on his experience and knowledge acquired during the semester-long internship.
