

### Course description:

This course seeks to introduce the student to English legal terminology which corresponds to Arabic legal terms. In order to maximize the benefit, these terms are taught through introducing law, and its various fields and branches, right, along with its fields, obligation along with its various sources. Moreover, the module deals with one of the legal topics in English in a detailed manner, thereby enabling the student to express his legal ideas in English, which will also facilitate for the student using foreign references when the need arises.

### Course objectives:

1. provide students with the basic as well as advanced knowledge in the basic legal terminology found in various areas of Law
2. clarify various concepts, terms and legal systems
3. develop student's cognitive skill and ability to deal with legal texts and documents, in addition to enabling him/her to use basic legal expressions in practical areas

### Learning outcome

After taking this course, the student should be able to:

1. Properly use many of the legal terms used in various aspects of law; like analyzing legal texts and documents in English, in relation to legal interpretation and analysis. In addition to expressing many legal thought in English.
2. Cognitive skills
3. Academic communication and skills.
4. Practical and/or professional skills (transferable skills).
